PROJECTS / OPEN-SOURCE

PORTFOLIO | [Link](#)

Html, Css Bootstrap

Portfolio Website (HTML, CSS, Bootstrap)

Created a personal portfolio to showcase front-end development skills with features including:

Responsive design using Bootstrap for mobile, tablet, and desktop compatibility.

Navigation bar, hero section, skills section with progress bars, and projects with links to demos/GitHub.

Contact form with Name, Email, and Message fields, and social media icons (LinkedIn, GitHub) in the footer.

Technologies used: HTML, CSS, Bootstrap for layout and styling.

PAGETURNER-ECOMMERCE BOOK STORE | [Link](#)

Html, Css Bootstrap

Pageturner-Book-Store (HTML, CSS, Bootstrap)

Developed a bookstore web application to enhance user experience with:

Add-to-cart functionality, allowing users to add books to their cart.

Login and registration pages for user authentication.

Interactive book genres with engaging animations.

Focus on responsive design, ensuring compatibility across various devices.

Key technologies used: HTML, CSS, Bootstrap for layout, styling, and responsive features.
